The Certified Hedge Fund Professional (CHP) exam is sponsored by the Hedge Fund Group (HFG), the largest international hedge fund association in the world with 125,000+ members. Members include multi-billion dollar hedge funds, hedge fund analysts, professors, consultants, third party marketers, prime brokerage professionals, and some of the leading hedge fund service providers in the industry.

The HFG has over a dozen Hedge Funds and Fund of Hedge Funds professionals on its Advisory Board. The group continues to attract new members, some of whom will join the Board of Advisors who oversee the CHP Designation Program.

II. CHP LEVEL 1 & LEVEL 2 DETAILS

The CHP Designation Program is a 100% online continuing education course. The CHP consists of two levels of testing, Level 1 and Level 2. Level 1 certifies that you have mastered a certain breadth and depth of hedge fund industry knowledge to help you excel within your current hedge fund position or enter the hedge fund industry.

Level 2, a more advanced certification, provides coursework and training in a specific area of the hedge fund industry such as due diligence, marketing/sales, investor relations, or analytics. You must complete Level 1 before registering for or taking the exam for any Level 2 module.

IV. CHP LEVEL 2 – PORTFOLIO ANALYTICS: EXAM PREPARATION

Candidates should purchase all the reading materials and follow the outline provided within this study guide. The keywords provide some additional ideas on what to pay attention to within the readings, but they do not cover everything that will be on the exam. The CHP exams are conceptual in nature and require more of an understanding than a great ability to memorize facts, figures or calculations.

Preparation time required for this exam depends on each candidate’s current knowledge, experience, reading speed and comprehension. We suggest 75-100 hours of reading /study time to prepare for the exam.

The Level 2 Analytics exam is offered 100% online, allowing you to complete the exam from your place of work or from home as long as you have a reliable internet connection. To complete the exam in the allotted two hour time frame requires mastery of the core concepts covered in the required readings as well as mastery of main ideas which are tested within an essay format.

Those who have not read the required material may have difficulty in completing the exam within the 2 hour time limit and achieving a score of 80% or better on the test.
